

People's Village

2026

COTS is proud of working alongside the 140 individuals in People's Village in the last three years, 57 of whom have found and maintained permanent housing. People's Village has been incredibly successful. After three years, the flexibility of this program has proven to increase successful outcomes to permanent housing for people experiencing chronic homelessness in our community. We are grateful to the City of Petaluma for funding this effective and compassionate program.

*Chris Cabral,
COTS' CEO*

To date,
People's Village has:

served
140
clients

moved
57
clients into permanent
housing

75%
current clients are
seniors

"Eileen [pictured] has been a huge help. The biggest help when it comes to housing. . . She's a rock star."

-Former People's Village Client, now housed

"They [COTS] made an everlasting impression on my life. The condition I was in when I came in there was having terminal cancer, and they didn't think I would make it the next two years. I mean, I was in a wheelchair and a skeleton from weight loss. But they stuck with me. They helped me and always encouraged me to get up and eat. The kitchen staff [and the kitchen volunteers] all supported me. And it was what I needed, the encouragement to keep on going to fight on and on and on. And so you guys made a great impression on me."

- People's Village Client Rusty, now housed

900 Hopper Street* is an address of hope.
It is an address of compassion.
It is an address of love.

-Patrick C., Current People's Village Resident
